LAWN&GARDEN 2-Cycle Oil is a high performance formula, specially designed for **AIR-COOLED** 2-cycle engines. A combination of select solvent refined base oils and special additives have been carefully chosen, and tested, to meet the lubrication requirements of pre-mix, two-stroke gasoline engines, operating in moderate to severe conditions.

A special low ash additive package contains detergent dispersant, corrosion-oxidation inhibitors, and anti-wear additives to prevent ring sticking, piston varnish, and wear; while minimizing exhaust port deposits.

LAWN&GARDEN 2-Cycle Oil is recommended for use in chain saws, lawn mowers, snow throwers, string trimmers, leaf blowers, brush cutters, some snowmobiles, portable pumps and generators, high-performance motorcycles, mopeds and scooters, ATV's, golf carts, and many other 2-cycle engines.

CAUTION

- The major cause of engine failure is improperly mixed fuel. Use care and your engine will last longer and run better.
- Where engine manufacturer require **TC-W, TC-WII or TC-W3** oils, use **SHIPMATE Outboard 2-Cycle Injector Oil**.

PREMIX GAS:OIL MIXING DIRECTIONS

OUNCES OF OIL	GALLONS OF GASOLINE				
4 oz. oil	1.5	1.25	1	.75	.5
8 oz. oil	3	2.5	2	1.5	1
16 oz. oil	6	5	4	3	2
GAS:OIL RATIO	50:1	40:1	32:1	24:1	16:1

For lawn mowers, chain saws, weed trimmers & air-blowers, motorcycle & mopeds, snow throwers, and many other 2-cycle
